

Dear Parents,

4/22/29 (COVID #11)

If you have school books, picture returns, or other school items that need returned to the school we have equipped our football ticket book with a drop box insert for school items. The ticket booth is located on the southeast side of the elementary parking lot at the football field entry.

A reminder: Our food service state inspector has directed L-M to reduce the amount of food deliveries to no more than two per week. This is directly related to the degree of COVID-19 Cases in both Muscatine and Louisa Counties. Monday and Thursday are our new delivery days. The food pick-up locations are the same. We will provide multiple lunches with each pick-up.

Conveying with the L-M School Board and L-M Administration it has become most evident that we are going to make every effort possible to have an official graduation ceremony this summer. At this time it looks like it will be scheduled sometime in June, but if need be we may consider July.

Louisa-Muscatine FFA greenhouse plant sales will be conducted online this year with curbside pick of orders due to school closure and the COVID Pandemic. Please visit our website: www.lmffagreenhouse.org to place your order and schedule a time for orders to be picked up. We will pull your order and set it on the sidewalk on the east side of the greenhouse/high school with a sign designating your order. Please follow guidance on the website and select curbside pick and enable text notifications. The system will send you a message when your order is ready for pickup. No customers will be allowed to enter the greenhouse or any other school facilities and all orders must be placed via the website with the curbside pick option. We will also not be planting custom patio pots this year. If you have any questions please feel free to leave a message on the website or email adam.crews@lmcsd.org. We appreciate your support and wish everyone safety and good health.

Have A Pleasant Evening,
Mike Van Sickle
